

User Guide: Quick Start

New bottle loading

1: Insert & leave the **TECHNICAL** card in the reader.

2. Select **Change Bottle** from the menu. 
(The lifter will go down)

3: Insert the **bottle straw**. Push straight up until firmly in place.

4: Insert the **bottle straw** inside the new bottle and place bottle on the lifter. Select **Change Bottle** 
(The bottle will raise and seal against tap)

The filter sits at the bottom of the bottle.

Ensure the foil is removed correctly

*If sealed properly, Menu will read **Bottle Present**.*

If the screen shows "Gas Pressure Leak", repeat step 4 and reposition the bottle !

*If not sealed properly, Menu will read **Gas Pressure Leak**.*

User Guide: Quick Start

Set Pour Volumes

- 1: Insert & leave the **TECHNICAL** card in the reader
- 2: Select **VOLUMES** from the menu.
- 3: Enter the mls desired for each pour size.
- 4: Enter the Bottle Size (750ml, 375ml)
- 5: Remove the TECHNICAL card from the reader.

Dispense Wine

- 1: Insert the **pouring card** in the reader and leave it in place.
A Box will appear around each Glass Icon.

- 2: **Press and Hold One** of the three Glass icons to begin dispensing, then release once pour has begun.

This icon appears during dispensing process. Leave Glass below spout until the Glass icons reappear.

Enable/Disable the Dispenser (unattended/overnight)

- 1: Insert the **TECHNICAL** card in the reader.

- 2: Scroll Menu using  Select **Service** and confirm  Choose **Disable**

All the lights will turn off and screens will be disabled. (Note: The refrigeration and wine preservation will remain operational). To re-activate the dispenser, repeat step 1 and 2 Select **Enable**.

Fact sheet

- Italian wine serving system used by hotels, bars and restaurants to dispense wine-by-the-glass
- Allowing 8 wines to be preserved and sampled
- 30+ day preservation after opening bottle (uses inert gas) including sparkling in select locations.
- Electronic pouring control for perfectly measured serving size
- Refrigerated to accommodate both reds and whites at optimal temperature
- Clean and safe way to store and handle our wines.
